Examiner's Amendment

In the claim

IN CLAIM 4

Line 2; replace "claim 5" with --claim 3--.

Reason for Allowance

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest a control circuit of a MOSFET for synchronous rectification that applies a voltage to a gate of the MOSFET; the control circuit comprises a first current supply unit, a first diode coupled between the output of the first current supply unit and the drain of the MOSFET, a resistor connected between the diode and the source of the MOSFET, a comparator that compares the voltage across the resistor to a first reference voltage and a gate driving unit that drives the gate of the MOSFET having the input coupled to the output of the comparator as called for in claim 1. Therefore, claim 1-9 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
